

Cover Crop Needs Assessment

Name _____ Acres _____

Conventional Organic

Grain Mixed Farm Livestock

Moisture

Dry OK Moist

Soil Texture

Sandy Soil Loam Clay Soil

Soil Fertility Level

Low Medium High

End use:

Hay Rotational Grazing Stockpiled Grazing Green manure

Ground Cover Relay Crop Soil Improvement Intercrop

Issues (rated):

Hard Pan Poor aggregation Slow infiltration Weeds Low N

Erosion Low OM Low fertility Grazing Hay/Silage Salinity

Seeding date:

Early spring Late spring Early summer Late summer Early fall

Seeding method:

Broadcast Drilled

Termination:

Cultivation Herbicide First Frost Last Frost Over winter Grazing/Hay

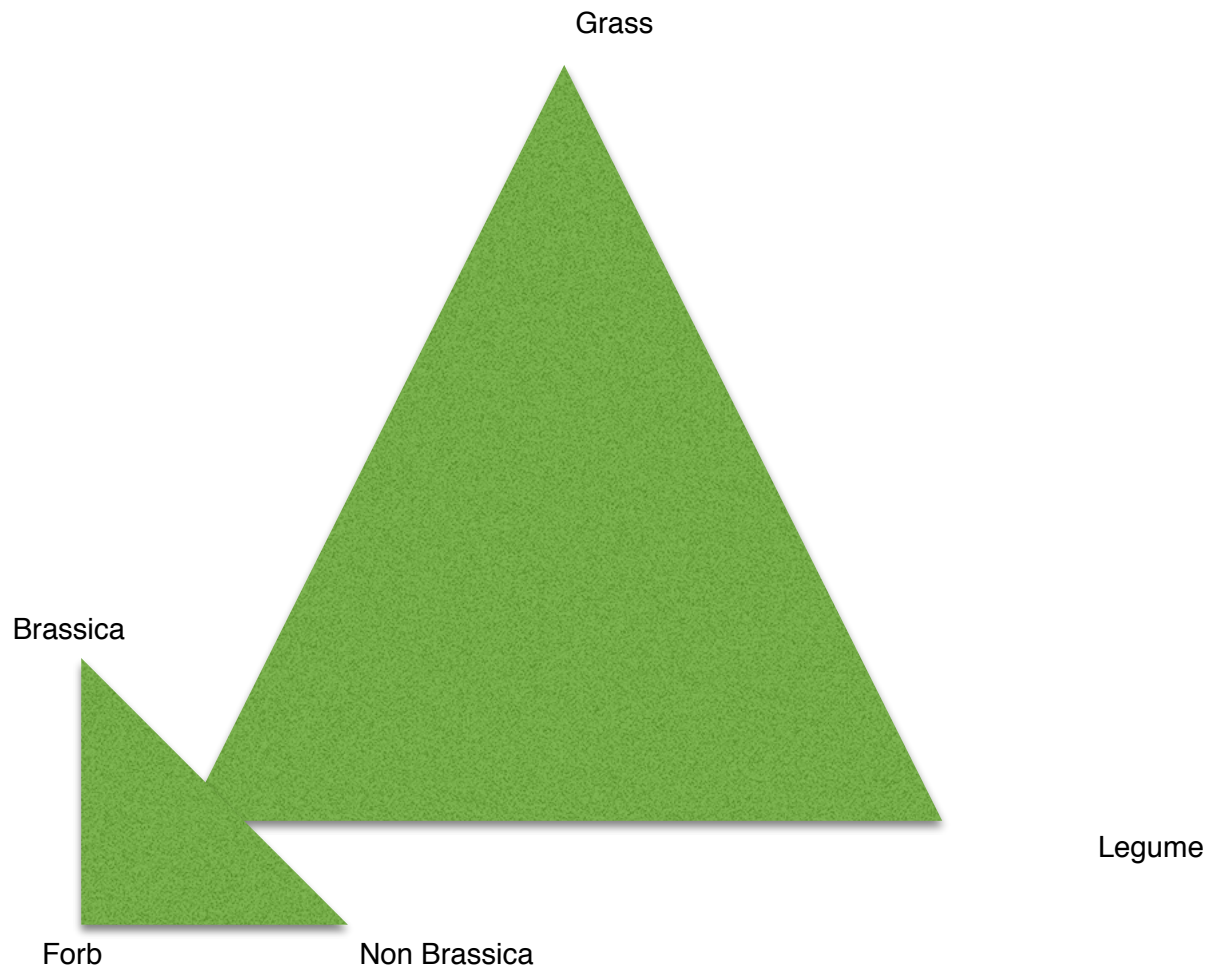

Last Crop:

This Year's Crop:

Next Crop:

Weed/Insect/Disease Concerns:

Seed the producer is supplying:

Species to consider:
